SUMMARY

Aspiring cybersecurity Specialist transitioning from a business-focused background, with a strong interest in protecting digital systems and solving security challenges. Committed to continuous learning and staying current with evolving threats, aiming to contribute effectively to a security-focused team. For details, [click here](#).

LEADERSHIP & COMMUNITY INVOLVEMENT

Amar Somoy, Amar Desh

Jan 2024 - present

Joined Amar Somoy, Amar Desh in January 2024, contributing across Education and Nature Environment sectors. Currently serving as **Assistant Director** of the **Nature Environment Sector**, with a focus on strategic planning, coordination, and team oversight. Previously held leadership roles in the Education Sector, where I led student-focused event organization, team operations coordination, and sector record management. These experiences strengthened my leadership, communication, and event management skills, and contributed to the **Education Sector** being recognized as **Best Sector** (Season 5).

PROJECTS

Open Source Contributions

[Projects link](#)

Security-focused developer with practical experience in penetration testing, network scanning, and addressing **OWASP vulnerabilities (SQLi, XSS, CSRF)**. Proven ability to build **secure tools** and **automation scripts**. Comfortable turning complex ideas into practical software, from password managers to full-stack social platform clones and interactive games.
